

Institutsseminar IFK

Wintersemester 2016/2017

Freitags, 13.30 – 14.30 Uhr
Haus 3, Hörsaal 3 (Helmholtzweg 3)

Datum	Vortragende(r)	Titel	
11. Nov. 16	Prof. Dr. Susann Schorr (HZ Berlin & FU Berlin)	A structural perception about intrinsic point defects in kesterite type compound semiconductors	Schnohr
9. Dez. 16	Dr. Kay Potzger (HZ Dresden-Rossendorf)	Magnetic properties tuned by defects – the role of ion beam techniques	Ronning
13. Jan. 17	Dr. Peter Hoppe (MPI für Chemie, Mainz)	Stardust in Meteorites	Jäger
27. Jan. 17	Prof. Dr. Andreia da Rosa (Universidade Federal de Goiás, Goiânia, Brasilien)	Functionalization of transition metal oxides: defects, doping and surface adsorption	Ronning

(Stand vom 8. Dezember 2016)
